Your Clients Win, You Win

Paychex is an expert in retirement plan design and administration. Let us help you expand your retirement business as a trusted partner.

We Offer the Following Advantages:

Business building and growth

We deliver new client opportunities, share timely information, and support your business development efforts.

Collaboration, not competition

We offer a complementary sales relationship. We work on plan design and implementation while you focus on client education and investments.

Local, on-site plan expertise

Paychex retirement plan specialists support your efforts on plans of any size, are available locally and virtually to help answer client questions, and assure smooth plan conversion.

Flexible plan design

Paychex offers a Pooled Employer 401(k) Plan as well as traditional and safe harbor plans, in addition to Roth 401(k), age-weighted, new comparability profit sharing, and other options for plans tailored to meet your clients' needs.

Support for you and your clients

Dedicated wholesalers and a highly trained service team are available to help you and your clients at every stage.

Account management tools

An exclusive advisor website delivers real-time plan and participant-specific data that help you uncover needs and opportunities. Separate online services for participants also reduce demands on your time.

Time-efficient sales

We reduce your time investment by simplifying the sales process and providing high-quality pre- and post-sale support.

Complete investment neutrality

As the trusted advisor to your clients, you are the investment expert. We provide the means, administration, and recordkeeping to help deliver a plan that is right for them.

The value of the investment options will vary with market conditions and, upon distribution from the retirement plan, may be worth more or less than the original value. A plan of systematic savings does not ensure a profit or prevent a loss in declining markets.

Part of the ERISA section 404(c) requirement states that a plan should offer participants a broad range of investment alternatives, requiring at least three diversified-investment alternatives, each of which has materially different risk and return characteristics.

For more complete information on investment options, please consult prospectuses and other comparable documents. Investors should carefully consider the investment objectives, risks, charges, and expenses before investing. This, and additional information about investment options, can be found in the prospectuses on each investment company's website. Please read these documents carefully before investing.

Plan Health Report | Move the needle for successful metrics

Strengthening Plan Health

The Plan Health Score™ is a measurement of overall plan health that benchmarks key metrics that are foundational to participants' retirement readiness.

The Plan Health Score can be aligned with overall goals enabling advisors and plan sponsors to focus on detractors to plan health and setting actionable goals for specific metrics. It can be viewed as a separate measurement component that helps move the needle for successful metrics overall.

Plan Summary of Key Elements

This easy-to-read summary of the plan's key components provides target measurements and progress toward goals.
